

Cookie Jar Blends

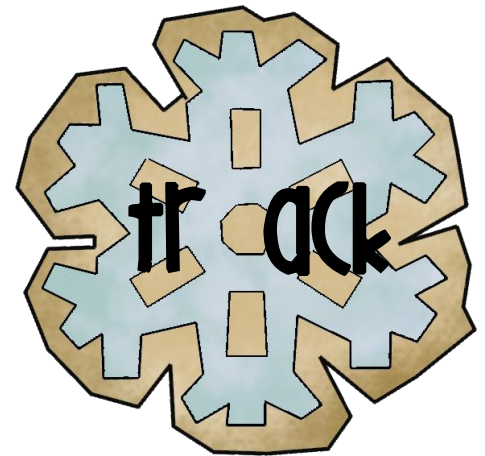

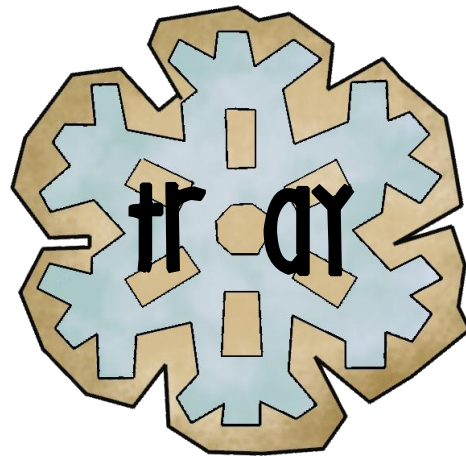

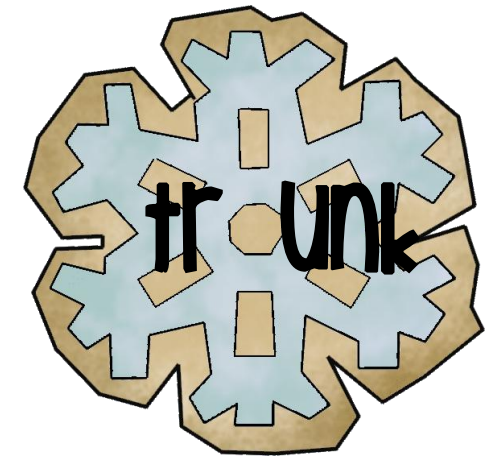

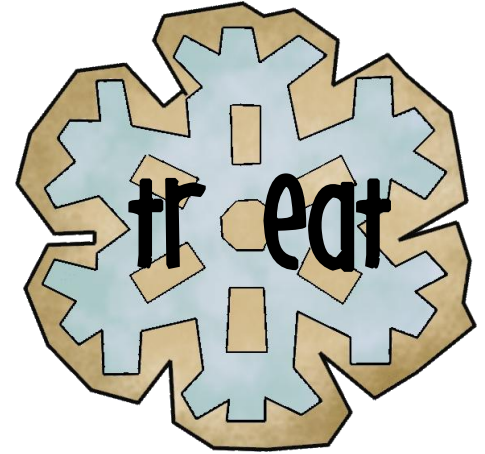

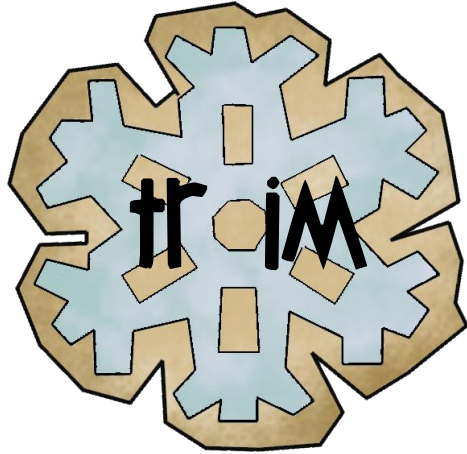

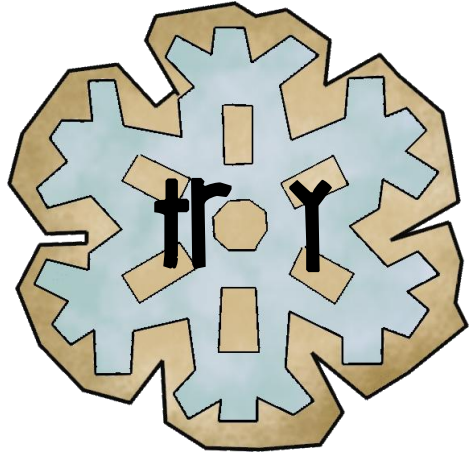

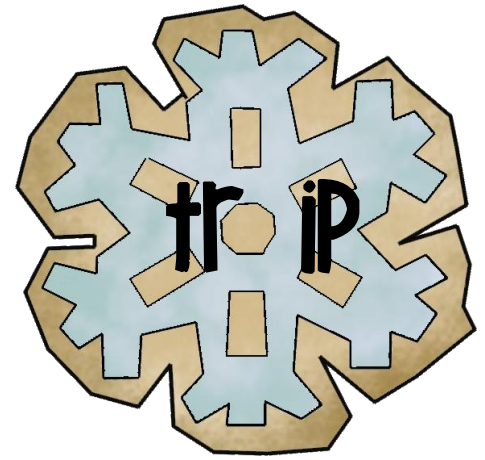

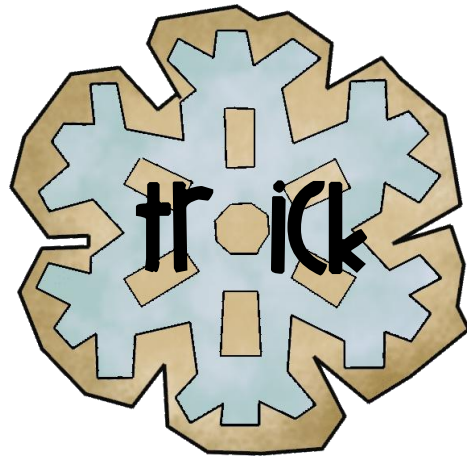

To prepare this activity, cut out the cookie jars and tape/glue each to a different cookie sheet. Laminate & cut out the cookies and then cut each cookie down the middle. Students work together to make cookies using the onset and rimes. Students place the full cookie on the corresponding cookie sheet. Once all the cookies are assembled and ready to be "baked", students record their words on the corresponding recording sheet.

COOKIE JAR BLENDS

Record the words you "baked"!
